## The President's Corner by Gary Stofer

September's here and hopefully it brings an end to the hot weather. Fall is just about my favorite time of the year to ride. Except to places like Yosemite, which is pretty used up by then. As I'm sure you know, our membership meeting for September will be on Saturday of the Labor Day weekend. Don't worry; the meeting will go on as planned even though many of our members will be out of town on NorCal's Gypsy Tour. It should increase your odds of winning a raffle prize if you attend. Did you know that RCB does not attempt to make a profit on the raffle prizes? Usually, the cost of the prizes exceeds the revenue raised by ticket sales. It's just a way of returning some of the membership dues to active members. At any rate, there will be an organized (?) club ride after the meeting just like every other month.

September 11 we're having a Progressive Dinner ride. This is something we've never tried before. We're going to assemble at A&S BMW to depart around 3:30 PM. Appetizer, main course, and dessert will be served at different locations. See article elsewhere in this issue. Marv Lewis will lead the ride. Please let him know if you plan to participate so we have plenty of food. The cost is typical for RCB members—free.

Our Poker Run held July 31 turned out great. Thanks go to Jim Cyran for the route suggestions as well as organizing the refreshments afterwards. This is the first time that I can remember where we started and finished an event at A&S. Working the first/last checkpoint at the dealer presented us with the opportunity to talk to a lot of non-members about the club, and I'm sure we'll have some new enlistees as a result. We probably will do something like this again. I wonder if there would be much interest if there were a small (\$5) entry fee to help

defray the costs of the event? For this event, we had 40 entries and spent about \$450 on prizes and refreshments. Your feedback is welcomed. Oh, the winning hand was 3 of a kind. The worst hand (John Jacobs) was 8 high nothing.

Want to try a poker run? Come to Central Cal's Autumn Beemer Bash at Quincy September 17-20. RCB puts on the Poker Run for this event and the format is the same. Ride the route, obtain cards at checkpoints. You end up with just 5 cards (if you hit all the checkpoints) and that's your hand. No card playing skill involved. First prize is \$150, 2<sup>nd</sup> \$100, 3<sup>rd</sup> \$50, 4<sup>th</sup> \$30, 5<sup>th</sup> \$20. Sometimes I can hit up some of vendors for additional prizes. Entry fee is \$5. The route is 103 miles and it'll take you about 3 hours. In addition to that, Quincy is just about the nicest venue for a rally; the Fairgrounds offer plenty of grass camping, a few showers, and a lot shade. And of course, Morning Thunder serves great breakfasts.

This month's riding tip? For long rides, a little entertainment helps out in the wide open spaces. A couple of years ago I got an XM radio that I enjoy listening to at home. The problem was finding some helmet speakers with enough power to overcome the 100 decibel background noise (attenuated by ear plugs) in a typical helmet. Enter the Earplug Co., ([www.earplugco.com](http://www.earplugco.com)). I had a set of custom ear plugs made at a Rally in New Mexico a while back. After I found how effective and comfortable the plugs are, I had a set of permanent plugs made with speakers molded in. These work great with or without the XM. I highly recommend them. Relaxing on the long stretches listening to your favorite music, sports, talk, etc, make it very easy to:

## Club Events this Month

Don't miss the progressive diner 9/11, this could be the dessert location!

Meet at A & S BMW at 3:00 P.M., Saturday, September 11th. We will then ride to three different RCB members homes where we will enjoy appetizers, main course, and desserts. Come and enjoy the ride, the comradery and the good food. Hosted by RCB (no cost to you). However, we do need you to RSVP to help us know how much food to prepare. Phone Marv & Lois Lewis at (916) 652-0575 or e-mail them at [mglewis@onemain.com](mailto:mglewis@onemain.com).

Mark your calendars for Sunday, Sep 26<sup>th</sup>, so you can ride the famous "RCB multi-pass ride". For details call Gary Stofer at 916-966-7910 or email: [prez@rcb.org](mailto:prez@rcb.org)

Bed and Brew Weekend October 23-24: This overnigher leaves from the Western Coffee Pot promptly at 9:00am for a full day of scenic, twisty roads to the coast. Re-hash the day with friends, tasty microbrewery beer, and good food in beautiful downtown Eureka. Make your own hotel reservations. Hotels within walking distance of the brewery: Super 8: 800-235-3232 or Quality Inn: 800-772-1622. Let David know if you plan to go 487-0233h or 397-9563c.

# PhanPhaq Riding Tips

Q. How far over the posted speed limit can I "safely" go?

A. The traditional rule of thumb – two-thirds the posted speed times pi over the square root of 2 -- is no longer recommended (76% of licensed riders – and 98.8% of unlicensed riders – can't solve this anymore even with a calculator). The contemporary rule of thumb, as everybody now knows, is 10. Unfortunately, nobody knows if this means 10 percent, 10 MPH or maybe 10 KPH. For safety and simplicity, we recommend you use the average of these values, to the nearest three decimals. Here's an example:

Posted limit: 65. Speedo error: 8% high. Using the average, you can probably avoid a ticket going 78.877 on the speedo. Simple, right? Disclaimer: Doing long division problems in your head while riding has been shown to be equivalent to a BAC of about 0.08, so what this means in reality is that you will probably be pulled over on suspicion of DUI, rather than just for speeding. Using an abacus while riding is also not recommended (wind can introduce calculation errors).

PS: police are not obligated to obey rules of thumb; besides, randomly variable negative reinforcement is a great way to de-range target subjects.

These are from the Phantom FAQ writer, aka the PhanPhaq .. this and more can be found at [www.rcb.org/faq.htm](http://www.rcb.org/faq.htm)

Q. Why do so many drivers (and absolutely every female driver under 30) find it necessary to talk on the mobile phone while pulling away from the curb? Why can't they finish the bleeping call before getting in motion?

A. The three most common and deadly delusions in contemporary life are that 1) I can multi-task without sacrificing performance ; 2) my time is precious because I am so busy; and 3) I need to be in touch with somebody at all times or cease to exist as a social entity. Put these fundamentally absurd notions together, and you can be sure it would never occur to a lot of people not to use the phone while pulling out into traf-

fic. Why these bizarre delusions afflict young women more than others is hard to explain. My guess is that girls are just a little ahead on the cultural-garbage learning curve, and within a generation or two every driver will be as distracted and ungrounded as the Heathers, Ashley's, and Britneys. As always: assume that everyone out there "sharing" the road is drunk or deranged, and you'll be right most of the time.

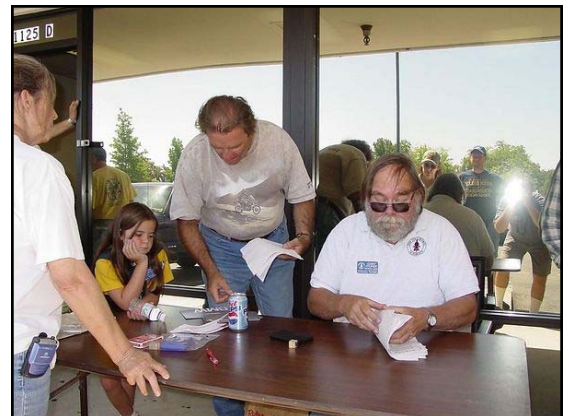

## Full House Poker Run

Close to 35 riders showed up at A&S BMW to participate in RCB's poker run.

Thanks to A&S and the use of their facilities for the start and finish of the poker run.

Yerington had close to 50 people attend the ride & bowl. It was an-

other raging success and we're ready for next year. The high bowling score was 184 and the low was 56 with lots of smiles in

### **Ride for Kids® 2003 Year in Review: you only turn 20 once!**

Over 17,000 motorcyclists, volunteers and fundraisers came together in 2003 to join the Ride for Kids® and the Pediatric Brain Tumor Foundation in their quest to find the cause and cure of childhood brain tumors.

You only turn 20 once and thanks to over 17,000 touring riders, cruisers, sport bikers, dual-sporters and off-road riders across the country, the Ride for Kids® program celebrated its 20th anniversary in a big way with 26 Rides in 2003. Motorcyclists raised an amazing \$3.4 million to support the Pediatric Brain Tumor Foundation (PBTF), whose mission is to find the cause and cure for childhood brain tumors and to provide a family support program for those families that have children afflicted with this most deadly disease.

Since 1984, the national Ride for Kids® program and PBTF have raised \$23 million to support childhood brain tumor research and family support programs. Thanks to the thousands of caring and generous motorcyclists and motorcycle dealers who

have supported the program since its inception, PBTF has become the largest non-governmental source of funding for pediatric brain tumor research in the world. Regardless of where a motorcyclist lives, he or she knows that by participating in a Ride for Kids® event, they are helping children diagnosed with brain tumors, both in their own community and throughout the world. With the continued decrease in federal funding for childhood brain tumor research, their efforts are even more important to the welfare of these children.

“In 2003, we announced the creation of the Pediatric Brain Tumor Foundation Institute at Duke,” said Mike Traynor, PBTF president. “While our hope is to fast forward childhood brain tumor research through the concentrated efforts of the Institute, we will continue our national and international basic brain tumor research programs, our sponsorship of leading brain tumor symposia and our many patient family support programs. We have now stepped up to the next level of research and into the most complete and compelling pediatric brain tumor research program in the world.”

Every year, individuals, motorcycle dealers and motorcycle clubs raise thousands of dollars in their communities to support the PBTF’s mission. In 2003, Scott and Mary Jo White of Gilbert, Arizona were the Top Fundraisers with a total of \$51,500. They raise funds through the Nikki’s Hope Foundation in memory of their daughter, Nikki, who succumbed to her brain tumor in 1998. The Top Dealer in the nation was Des Plaines Honda in Des Plaines, Illinois with a total of \$79,772. Gold Wing Road Riders Association (GWRRA) Illinois Chapter G2 was the Top Club in the country with a total of \$84,205.

For the 20th consecutive year, the Ride for Kids® program celebrated a record fundraising season. The Foundation is pleased to announce that 88 percent of the funds raised are distributed through its programs. “At a time when there is so much uncertainty in the economy, I would like to thank the motorcyclists across the country for their continuing support of the Ride for Kids® program,” Traynor commented. “We also are extremely grateful to the American Honda Motor Company for their support as our presenting sponsor since 1991.”

### **Sacramento’s 2003 event was very successful.**

Some days are just perfect and Sunday, October 5, 2003 in Sacramento, California was just one of those days. With spectacular sunny conditions as a setting, some 825 motorcyclists, volunteers, fundraisers and patient families gathered at Auto Value Auto Parts Headquarters to celebrate the 11th Annual Sacramento Ride for Kids®. After a year of hard work, these folks sure had a lot to celebrate raising \$171,797 for pediatric brain tumor research. Today, more children die from brain tumors than from any oth-

er childhood cancer. The Pediatric Brain Tumor Foundation, supported by the Ride for Kids® program, funds critical research to find the cause and cure of childhood brain tumors.

After riding on rolling and winding scenic roads at the foothills of the Sierras in California's historic gold country, the motorcyclists and supporters came together for an amazing Celebration of Life program at the Amador County Fairgrounds in Plymouth, California. With a Ride for Kids® record-setting 23 brain tumor survivors on stage, motorcyclists listened to these special children and young adults share what their lives are like. Dr. Mike Edwards, a neurosurgeon and neuro-oncologist, enjoyed the Ride, too, on his Honda RC51 motorcycle. Dr. Edwards told those in the audience, "We love these children like family and we are blessed by the loving family of motorcyclists gathered here today." Anne, the mother of four-year old Matthew, comment-

ed, "It is so unbelievably overwhelming to be here today, to see so much caring and feel so much love for children like our son Matthew."

The Top Individual Fundraisers were Charles and Phyllis Horner with a total of \$10,706 and Kirk and Ann Harry, whose son Sam died from a brain tumor, who raised a total of \$20,000 from the Sam Harry Foundation. The Redwood Riders were the Top Club with a total of \$16,185. The Top Shop was Wing Nut with a total of \$20,035. Paul Morey of Yuba City, California had an exciting Sunday afternoon! He was the winner of a brand new Honda motorcycle donated by American Honda Motor Company.

Special thanks and congratulations go to Sacramento Task Force Leaders Bill and Sue Neander and Jack and Lillian Cushman and their dedicated team of volunteers.

## Member Equipment Pics and Raves

RCB member, Larry Loftus, loves his Held "Steve" glove.

"I also have a Held summer glove that they make which is made out of stuff that lets air in (hope that wasn't too technical). I think the glove above most closely compares to Lee's gauntlet glove in price and style. Of course my position is there is no comparison in workmanship, quality or protection. I've seen Held gloves on several BMW riders so you might see one up close and personal, or next time (or better put, if ever) I go along one of the RCB rides... I'll show you both pairs side by side." Check out Held gloves at A&S or the web at [www.held-biker-fashion.de/](http://www.held-biker-fashion.de/)

Larry also loves his Diadora Express Waterproof Boots. Larry said that these Diadora's are the most comfortable boots he now owns. They work great on or off the bike. The Diadora's are so good you could use them as your only choice of shoe for your entire road trip.

Here's the sales pitch from the boot company...

"Anti-scratch, full-grain, high-quality leather boot \* Veratex® waterproof and breathable lining \* Hiking boot style, non-slip sole \* Injection molded plastic internal ankle guards \* Reinforced heel and toe \* Side zipper entry with two Velcro® flaps for a good secure fit \* Keprotec® Reflex reflective panels on sides and back of boot for night visibility \* Toe shifter pads \* Short design \* Extremely comfortable \* Wear them just as you would hiking boots \* We've tried them and we love them! You really can hike in them for hours."
